LIMIT ON PATENT SUITS.**United States Court Decides They Date From Time of Discovery of the Fraud.****BY A. P. NIGHT WIRE TO THE TIMES**—**SAN FRANCISCO**, Feb. 25.—The United States Circuit Court of Appeals has decided that the statute of limitations in land patent suits does not begin to run from the date of the filing of the suit, but from the date which the government contends that the patents were obtained by fraud, but from the date of the discovery of the fraud. The decision was given in the rehearing of the case of the United States against the Linn Timber Company, Oregon.

It was held that fraud in the operations of the timber company was not discovered until long after the date of the patent and that the suits were begun within six years after the date of the discovery, so that the statute of limitations could not operate.

The United States District Court was ordered to render a decree in favor of the government.

TWO MORE DIE
IN ANTARCTIC.Lieut. Ninnis and Dr. Merz
Perish.Members of Dr. Mawson's
South Pole Party.Survivors Spending Winter
on Adelie Land.BY CABLE AND A. P. TO THE TIMES:
SYDNEY (N. S. W.) Feb. 25.—
Two members of the Mawson Antarctic
Expedition, Lieut. Ninnis, an Eng-
lishman, and Dr. Merz, a Swiss, have
died. Dr. Mawson and six of his com-
panions have been left for the winter
on Adelie Land, a barren tract in
the Antarctic because they were unable
to reach the expedition's ship,
Aurora, before she was compelled to
leave.This news is received here by wire
from Adelie Land via Macquarie
Island.The party left Tasmania in 1911,
accompanied by a large body of
scientists and engineers, the
regions around the south magnetic
pole.Once again the British army is
defeated by the loss of a brilliant offi-
cer, Lieut. E. S. Ninnis of the famous
Royal Fusiliers Regiment. He
was a close friend of Capt. Lawrence
Oates of the Inniskilling Dragoons,
who perished while returning from
the South Pole with Scott.

Dr. MERZ A SPORTSMAN.

Switzerland also has suffered a
great loss by the death of Dr. Merz,
a scientist and sportsman. After
winning the ski jumping champion-
ship in Switzerland in 1908 he offered
his services to Dr. Douglas

Mawson.

Lieut. Ninnis was the expert of the
expedition on snow-skiing and sledging.
The scientific messages hitherto re-
ceived from the Aurora do not state
what was said to have been
meeting after Boyce slipped

Snead.

The expedition started out, not
with any idea of rushing to the
South Pole but with the intention
of exploring and naming the un-
known lands of the Antarctic and
making numerous observations
around the magnetic pole.According to the wireless reports
received from Dr. Mawson, the prin-
cipal object of the expedition was ob-
served. Unfortunately he and six of
his companions, after they had been
picked up by the Aurora, undertook
another expedition and were unable
to return the ship, which was com-
pelled to leave them.

ALL MEMBERS ON BOARD.

The fact was indicated in the
previous message received here
from the Aurora on February 13,
which said that all the members of
the expedition were on board the
vessel. It would appear, therefore,
that Dr. Mawson, with some of his
companions, must have landed again.The expedition consisted of nearly
one hundred men, most of them graduate
members of Australia and New Zealand.
It was financed by popular subscription.Dr. Mawson purposed a
complete geographic and magnetic
survey of the Antarctic region between
Cape Adare and Gaussburg, a
distance of over 2000 miles. The ex-
pedition landed on Adelie Land, which
is a barren tract of what also includes
the singer, Hermine Fink, whom he
married in 1895. Those who thought they
would hear sensational details of their troubles were sadly
disappointed. The court took place behind closed doors.
Eugene D'Albert was formerly married
to Teresa Carreno, but that tie
lasted three years.

VIENNA, Feb. 25.—[Special Dispatch.]
The pianist and composer, Eugene D'Albert, has been divorced
from the singer, Hermine Fink, whom he
married in 1895. Those who thought they
would hear sensational details of their troubles were sadly
disappointed. The court took place behind closed doors.
Eugene D'Albert was formerly married
to Teresa Carreno, but that tie
lasted three years.

SUFFRAGE ARMY VISITS CARDINAL IN
BALTIMORE AND PRESENT HIM WITH
ONE OF THEIR BANNERS.

(By A. P. Night Wire to The Times.)

BALTIMORE (Md.) Feb. 25.—Cardinal Gibbons received the suffrage army of the American
Legislative Association today and was presented with a
"Votes for Women" flag by "Gen." Rosalie Jones, who expressed the
hope that the Cardinal might join
them in their fight for woman's rights.The cardinal accepted the banner,
but declined to commit himself to the cause.
He assured his callers that he
had no time to go into politics and
they would not find the hearts of
the Legislators as hard as the ground
they had trod on the stones they had
tumbled over. He shook hands with
each of the hikers and gave them his
blessing upon their departure.

Iway Commission Explains Its Espe Decision.

es to Circumvent Kuhn, Loeb Syndicate.

Joint Traction Rights Are Open to All.

A. P. NIGHT WIRE TO THE TIMES] SAN FRANCISCO, Feb. 25.—Why California Railroad Commission compelled to disgorge with Atty. Wickersham why it upset last the plan of the Harriman system for controlling the Union Pacific? The Supreme Court of the United States after those plans had been approved by the Department of Justice, and what the commission decision was set forth more fully today in a supplemental decision.

Attention to the supplemental finding was first drawn by Charles S. McAdoo, counsel for the Western Pacific, who opposed him in so far as applying to California. Atty. General of the Pacific and Union Pacific made application to the commission on the part of the Central Coast for an exclusive lease running years, on the Benicia short line, by the Southern Pacific, and retaining the main direct transcontinental outlet to the Pacific Coast.

ELEMENTS OF THE PLAN.

When quoted from the findings:

The essential elements of the plan as Supreme Court as added to by Attorney-General are:

First sale of the Southern Pacific by the Union Pacific; second, outlet to the Pacific Coast for the Pacific over the Central Pacific, which is under the Southern Pacific as much as the Central Pacific as is necessary to prevent said Southern Pacific Company controlling a line designed to compete with the El Paso route.

SUCCEDED BY INDIRECTNESS.

With the first requirement we (the railroads) have no direct or official news, but we invite attention to the Attorney-General to the conclusion of the Western Pacific Railroad Company that the syndicate by Kuhn, Loeb & Co., the Pacific bankers, is in effect accomplishing by indirectness what the Supreme Court refused to permit to be accomplished directly, viz., the sale by the stockholders of the Southern Pacific of the Southern Pacific to the Union Pacific and therefrom controlled, an arrangement the Supreme Court has already sustained.

WHEELER'S STATEMENT.

In his statement, Mr. Wheeler goes what he believes, is necessary to accomplish actual competition between railroads and insists that joint of industrial tracks, local facilities is an absolute necessity. He says that where one road makes a direct route to the market of other lines, but decides to make a right to use that road to any particular line, it must, "for the convenience of the whole traveling public of United States, extend the same right, upon the same terms, to other transcontinental road."

The effect of the unanimous decision of the railway commission of "the day of the railway commission of California," Mr. Wheeler concluded to lay down the principles which I have referred to positions of position and discrimination to naturally give rise to public discussion.

READY FOR COMPETITION.

Discriminations and rates of new under control through the Interstate Commerce Commission and railroad commissions of the States and by the decisions of the courts. But the remedies which will be about due competition on the part of railroads, and the significance of the railroad commission of California is that it is believed to be the true line on which the competition problem is to be solved.

A statement was forthcoming from the office of President Wilson's new railroads and the Southern Pacific, now old Charles H. Smith, president of the Western Pacific, his chief witness before the committee care to discuss the ruling of the commission.

A. P. NIGHT WIRE TO THE TIMES] NEW YORK, Feb. 25.—The greatest factor of interest in the case not today was the decision of the Senate Railroad Commission, in opinion of the Harriman system, it is ruled, if sustained, would only interfere with the proposed rate revision, and might even fail. In consequence, the Pacific said off to buy the greatest effect was on the Pacific, which was bought on the ground that the company would soon by uniting the dissident Southern Pacific became the strongest railroad in the country, more than a year ago last night's close.

QUIT AS GOVERNOR; SAYS HE MAY TURN HANDSPRING.

WRITES HIS RESIGNATION AS HEAD OF NEW JERSEY TO TAKE EFFECT ON MARCH FIRST, AND HE WILL THEN SPEND THREE DAYS AS A PRIVATE CITIZEN.

BY A. P. NIGHT WIRE TO THE TIMES] TRENTON (N. J.) Feb. 25.—President-elect Wilson resigned the Governorship of New Jersey at 1 o'clock today to take effect at noon on Saturday, March 1. He wrote his resignation in his own hand and sent it by Secretary Tumulty to David R. Crater, the Secretary of State.

"I shall have the pleasure of being a private citizen for just three days," remarked Mr. Wilson. "I think," he added with a smile. "I shall celebrate the fact by turning a handspring just to show that I have no dignity of it to maintain."

Mr. Wilson will attend the ceremonies on noon Saturday when his successor, James Fielder, president of the State Senate, succeeds him.

Congressman Sherwood of Toledo fears band might scare his horse and cause an upset.

BY FEDERAL (WIRELESS) LINE TO THE TIMES]

WASHINGTON BUREAU OF THE TIMES, Feb. 25.—[Special Dispatch.] Congressmen Sherwood of Toledo today declined an offer to command a brigade in the inaugural parade to be composed of members of the G.A.R. and other patriotic societies. Gen. Sherwood explained that he would not be averse to heading the parade if he might do so in a runabout behind a team of high-stepping roadsters, but he said that he intended to take the risk incurred in trying to ride a spirited horse to the accompaniment of bands of music.

New Jersey Legislators Say Souls Are Their Own.

Kill His Jury Bill and Will Take Consequences.

Says He'll Come Back as President and Fight.

BY A. P. NIGHT WIRE TO THE TIMES]

TRENTON (N. J.) Feb. 25.—Gov. Woodrow Wilson warned the members of the New Jersey Legislature tonight that as President of the United States he would feel privileged to come back even as early as next week to fight before the people of the State for pending reforms.

Mr. Wilson resigned the Governorship today to take effect Saturday. Both houses hardly had received his notice of resignation when the Assembly went on record by an overwhelming vote against pushing the jury reform bill from first to second reading. This bill had been urged particularly by Mr. Wilson in his message. It would take away the power to draw juries from the Sheriff's lodges if with a commission appointed by the Governor.

BURLINSON'S CAREER.

REPRESENTATIVE BUREAU OF AT&T,

TEXAS, has served nearly fifteen years in Congress, having been elected first to the Fifty-sixth Congress and he was re-elected to the Sixty-third Congress last fall. He was one of the staunch supporters of Gov. Wilson in the House of Representatives from the beginning of the preconvention contest last spring and took prominent part in the election campaign. In Congress his chief work has been as a member of the Appropriations Committee.

The United Fashion Show, whose windows will be unveiled at 7:30 o'clock p.m. on the evening of March 5, will be more wonderful than that of any season heretofore. Window artists are exerting their utmost skill in planning for original decorations, and the merchandise is more entrancing than it has been. The Fashion Show will continue during March 6, 7 and 8, during which time many of the big stores will display the newest creations, upon manikins during dress parades, for thousands of spectators, who will be accommodated in their luxurious salons.

"I wish," said the cashier lady, "that all women would favor us by caring for our change when it comes." It is just this that they are doing, and the result is that they have made the same return to us.

Long afterward a young man, who had made the same return to me, and ever since that time until my change immediately upon receipt.

When you come to think of it, it is not right to treat money carelessly. Suppose you thrust a coin, uncoupled, into your pocket-book and later in the day, in up accounts, you find a short instantly your mind reverts to the time when you last spent that you blame the poor. Cashiers are but human, and in error; and when you are party to a transaction you should do your duty, and return your change.

Your duty and failure to do this is a duty and lay open to anyone who may be innocent.

THE AGE OF LOVE.

A lady of 105 years of age has eluded the watchful eye of her relatives and married the man of her choice. We submit that she was old enough to know her own mind.

FINGERS COME HIGH.

A Chicago woman, in a suit against the Northern Pacific, has just been awarded \$22,000 for the loss of her little finger. The railroad company must consider itself lucky that the good lady did not lose a whole arm at the same rate of compensation. If this value for a little finger is accepted as a precedent, we may see in the near future many people walking the streets minus one or two digits—and the mortgage paid off. A little finger in Chicago is worth a fair-sized orange grove in Southern California.

THE SIX-YEAR TERM.

If the six-year Presidential term Constitutional amendment, which passed the Senate by the casting vote of Progressive Senator Woods, shall pass the House, and be ratified by the requisite number of States, the Big Bull Moose will be permanently out of a job, and will—with a 60 per cent contribution from Perkins, Munsey, Morgan and others—be able to resume his pernicious activities among the fauna of Africa. That is, unless his gratitude to Holy Hiram for the help that Holy gave him during the campaign last fall should lead him to assist that renounced kicker to make a mule's father of himself by running for the Presidency.

MAN'S PRICE.

In visiting an Indian reservation recently a traveler met a fine old Indian brave at the trading post early in the morning. Passing there several hours later he observed this splendid type of redman still in his chair in an attitude of expectancy. Asked for what he was waiting the Indian replied gravely, "Fifteen cents." This no more applies to the worthlessness of the Indian than to the poor rewards of life to which a majority of men submit. For all that many of us accomplish toward the realization of our fine capacities we might as well be paid 15 cents. How many kings of men are turned from the royal road to the throne for a little handful of gold which is cheaper than the dust they tread in comparison to their abilities!

COUPLING A HOME.

More people in Los Angeles live in and own their own homes than in any other city of equal or greater size in the United States. Miles and miles of flower and vine-embowered bungalows accessible in ten to fifty minutes by a 5-cent trolley fare line our thoroughfares.

One can purchase a well-constructed, pretty, accessible cottage as low as \$1500 by paying \$50 down and the balance at \$15 per month, including interest at 7 per cent per annum. Any industrious workman can easily meet the monthly payments. Of the first month's payment \$6.54 will go on account of principal and \$3.46 for interest. Each month the interest apportionment will diminish 4 cents and the amount paid on account of principal will be increased 4 cents. In twelve years and seven months he will have paid for his home by installments no greater than he would have paid for rent as a tenant, and the property will in that time have greatly increased in value.

WILSON AND BRYAN.

It is almost a part of the unwritten law that a President shall offer to name as his Secretary of State one of his opponents for the Presidential nomination. Lincoln selected William H. Seward for Secretary of State, Simon Cameron for Secretary of War, Salmon P. Chase for Secretary of the Treasury, and Edward Bates for Attorney-General. All these gentlemen were candidates before the Chicago convention, and it was a combination between the forces of Cameron and the supporters of Lincoln that finally defeated Seward.

Benjamin Harrison was forced by usage to make James G. Blaine Secretary of State. But he hated Blaine, was jealous of him, and persistently turned down every recommendation for Consulship appointments that Blaine made.

President Wilson is credited with having a dominant will of his own. He has probably never forgotten the opinion he formed and expressed of Bryan years ago, and if the latter attempts to "run" the administration there may be a collision and an all-around smash up.

OLDIERS AS COOKS.

Our State militia will lose nothing in efficiency by adopting the recommendation of Adjt.-Gen. E. A. Forbes that our soldiers be taught the art of cooking. Good cooking and good fighting are more closely related than most civilians suppose. Courage depends on a sound stomach as well as on a sound heart.

It is true the Adjutant-General's scheme is prompted primarily by economical considerations, since he has observed a great waste ensues from an improper method of preparing food. Still the fighting efficiency will certainly go up as this waste goes down. Modern strategists are discovering more and more from the result of recent campaigns that battles are won just as surely through the commissariat department as on the firing line. Good cooking is a national necessity, both in peace and war; good cooking and good citizenship invariably go together.

FOR REVENUE ONLY.
The Democrats in Congress will begin their "tariff for revenue only reform" by deviating the treasury of the \$55,000,000 now received from importations of sugar, and by placing on the free list articles which now pay \$17,000,000. This loss, it is estimated, will be made up by an income tax that will yield \$25,000,000, from which, however, must be deducted the corporation tax which this year will yield about \$30,000,000.

This deficit of \$15,000,000 will be increased by reductions in duty in the cotton, wool and other schedules, unless, as is hoped by these patriotic statesmen, the effect of such reduction shall be to greatly increase the importations of cotton and woolen goods and cause the American people to wear goods made in Manchester, England, instead of Manchester, N. H., leaving the woolen manufacturers of the latter place to the alternative of closing their factories and reducing the wages of their operatives, or going into bankruptcy and leaving to the operatives the choice of accepting lower wages or going to the devil.

According to the Democratic programme as now announced, there may be but little change in the chemical, iron and steel and free list schedules, but great changes will follow the new light thrown on individual articles.

The duty on crude opium of \$1.50 per pound will be cut in two, so that everybody can hit a pipe. The duty on cigars will be reduced and the cost of engagement rings be lessened. The duty on cigars, which is now \$4.50 per pound and 25 per cent ad valorem, will be reduced so that Connecticut and Virginia tobacco may be discarded, and every newsboy be able to place a genuine Havana between his labia.

Perfumery and cosmetic containing alcohol, which now pay a duty of 60 cents per pound and 50 per cent. ad valorem, will be cut down, so that every farm hand when he goes to see his girl can drench his hair and face with cologne water made in Cologne, instead of the bogus Cologne water manufactured in Podunk, R. I.

The duty on ostrich feathers and Chinese queues to be made into "rats," and beads and kid gloves, and sealskin sacques and paintings and statuary, will be cut down so as to place these necessities of life within the reach of the poorest.

As now appears the iron and steel workers will be the chief beneficiaries of the proposed tariff for revenue only. There will be no reduction of duty in the things they make, and they can continue with the help of a duty of 45 per cent. ad valorem to defy the competition of Sheffield and Birmingham.

But the farmers of the Middle West must submit to a cut in the duties on dairy products, and vegetables, and fruit" and grain, that will let the Canadian products in so as to reduce the cost of living to the iron and steel workers.

Grant said in 1880, "The Democratic party will break its back across the Allegheny Mountains on the tariff question" —and it did. The South has always favored free trade. It is now in the saddle and promises to be remorseless in its exactations. If it should be, it will shipwreck the administration of Woodrow Wilson, and after a season of disaster such as ensued from the election of Cleveland and a Democratic Congress in 1892, the nation will return to a sane and safe policy of protection to American industry.

THE BALKAN PROBLEM.

Just before the outbreak of hostilities in Eastern Europe it was conceded that the attitude of Roumania would be decisive of the question of peace or war. If Roumania allied herself with Turkey the Balkan states would abandon the thought of war and resort to diplomacy. If Roumania threw in her lot with the allies, Turkey would at once recognize that the odds against her were great and would come to terms. If Roumania remained neutral there would be war.

Roumania remained neutral, and now that the Balkans have substantially won the fight, Roumania, with a nerve that might excite the envy of Sir Edward Grey and make Col. Bryan look like a shrinking violet, demands to be compensated for her neutrality with a slice of Bulgarian territory—a rectification of her frontier, she calls it.

Roumanian diplomats have watched with jealous eyes the daily extension of the Bulgarian coast line as the army marched toward Tschataldje, until now it stretches within thirty miles of the Bosphorus. Roumania now says that Bulgaria has more coast line than she needs and Roumania has less than she needs. Therefore in the distribution incident to driving Turkey out of Europe Roumania demands what she calls "her share."

She has not fired a gun or contributed a dollar to entitle her to any share whatever. But she intimates that she is prepared to do both in order to obtain what she wants.

"It is," says a correspondent of a Boston journal, "asserted in Vienna and passed from thence to every city in Europe, that Roumania is mobilizing and that she means war, that her envoys have gone to Constantinople to arrange terms with the Porte, that their journey is not a pleasure trip, and that when she strikes she will strike quickly; whilst amid all this babel of speculation every now and again is heard the voice of statesmen declaring that there is nothing to any purpose in all this bother, that neither Roumania nor Bulgaria have any thought of war, that they thoroughly understand one another, and that their differences never were and never would be for the battlefield, but for the council chamber."

Roumania was formed in 1878 by the union of the Turkish provinces of Wallachia and Moldavia. These provinces passed through a long period of subjection to Turkish rule, but it was a qualified subjection. The Sultan ruled them and sold them to the highest bidder, yet their existence as separate entities was always recognized.

The Roumanian differs in language, in history and in race from the members of the Balkan league. The Roumanian is Latin. The Bulgarian is Slav. The Roumanian uses Slav words and Turkish words, but the basis of his language is

Just before the outbreak of hostilities in Eastern Europe it was conceded that the attitude of Roumania would be decisive of the question of peace or war.

"In view of the secret agreements which are said to exist," says a recent writer on the subject, "between Roumania and Austria-Hungary, and the effects which a Roumanian invasion of Bulgaria, especially in the present situation, would have in Russia, it is obvious that such a step would be a serious menace to the peace of Europe."

The real question at issue is not one between Roumania and the Balkan states. It involves Russia and Austria-Hungary.

1/2 Less Cottolene is required than Butter or Lard

That's simply because *Cottolene* is richer than either lard or butter. It makes better food, too—food free from grease and indigestion—food that is light and crisp and flaky—food that digests easily and does you good. *Cottolene* contains no hog fat. It is a vegetable product—made from choicest cotton oil.

Cottolene

Nature made it, and Nature knows what is good for human stomachs. Don't cry any more about the high cost of living until you have practised the economy which the use of *Cottolene* will enable.

Discard lard altogether, discard butter except for your table, and use *Cottolene* for all shortening and frying. The results, as well as the economy, will make you thankful for having read this advertisement.

Try This Recipe

GINGER DROPS
Cream one-half cup of *Cottolene* with one-half cup of sugar and add one cup of molasses. Beat into this two and one-half cups of flour sifted with a teaspoon each of salt and cinnamon, six dashes of nutmeg and ginger. Add two well beaten eggs and three-fourths of a cup of boiling water, in which two teaspoons of soda have been dissolved. Bake in muffin pan in very moderate oven.

These are particularly tender and delicate and may be served as individual puddings with sweetened cream.

command of these versatile swindlers.

The finding of these marriage li-

censes in Rial’s safe deposit box,

while merely adding one more link

to the already strong chain of evi-

dence against him, Deputy District

Attala Sheriff said last night his

body of water convinced him that

the persons who swindled Frieser

and other men here and in near-by

cities are one and all members of the

same organization responsible for

the swindling.

That appears to be all right

but the persons who swindled Frieser

and other men here and in near-by

cities are one and all members of the

same organization responsible for

the swindling.

“It would be a comparatively easy

matter for some member of the or-

ganization to pose as a minister or

other person empowered to perform

marriage ceremony,” said Chief

Sheriff, and in this he induce the

intended victim to believe she had

been married.

I observe that the li-

mens are smaller than those used

and are worded as though all

were using them must live in San

Francisco. I do not know

whether they are fabric, linens or

merely blankets obtained in San Fran-

cisco. In either event the purpose

is to get away through unpre-

paredness.

The determination to search Rial’s

safe deposit box came yesterday

morning resulting in a minimum of

which threatened strained rela-

tions between the District Attorney’s

and the Police Department.

Detective Zeigler spoke to

about a search warrant.

Rial, however, asked whether Chief

Sherriff had thought of the possi-

bility of taking the matter be-

fore the grand jury.

This question

officer, Detective Zeigler and Wedge, de-

termitted to go down to the bank and examine the box.

Deputy District At-

torney Graham drew the necessary

paperwork.

Rumors of a clash in au-

thorities denied by all concerned

and their lawyers to have been only a

great misunderstanding.

WHAT’S BOOZE CASE.

In addition to the marriage license

found in the box the detective also

found a racing ticket stubs, “25

and Folsom streets.” There was

also a paper band such as is used to

bind bundles of currency. This

band was unbroken, as though the

box had been slipped out, and

the following: “Farmers’ Na-

tional Bank of Los An-

geles, Cal. \$500.” On the reverse

side of the bill dry battery with

an Indian word to be written

on the outfit also was in the box

together with a sheet of type-

memoranda, formed the con-

tinuous box. This memoranda at

the bottom of the box was

“blind pig.”

our hundred dollars, in ten-dollar bills, wrapped in a roll, was burned by which destroyed the home of Wells, No. 5936 Bonanza avenue night.

The last ten-dollar bill had been held to the roll at 7 o'clock in the evening, when Wells returned home. money was to have been used for investment which had been made for several months. After getting the money, and finding the safe empty, Wells tossed it on the dining table while he went to the room to eat.

At the time Wells lit a candle for the emergency. It was placed a sideboard, and suddenly flared up from the room. The explosion drove the flame. The room was in flames, he ran to a neighbor's house to summon the fire department.

At the time he returned the entire room was in flames. The library, the rest of the house was seemed to be a scene of the greenbacks for hours. When the fire department arrived, Wells immediately informed men of the whereabouts of the money. They pressed on to that vanishing point.

Wells said it was on the table. In tumbling flames, the firemen could distinguish it. Suddenly a stream of water was whipped across the table, was a jagged hole. It was driven into a corner of the room, where it uttered against the walls, falling in the stream of water was spewed by the firemen, and rising as steam ascended, seemingly above an inch or so above the floor of the stream.

"That's my money," Wells shouted. The hose was immediately dropped the money fell, but was buried in blazing debris. When the hose played over the spot, where it had landed into the air for a moment, and was gone again. Three firemen rushed forward to get it, but it was held off by the flames. At last fire around it was extinguished the roll of money, now intact to lay open and expand. It was called, and he reached hard and grabbed the roll. It slipped in his hand, charred and destroyed.

The loss to the building and contents estimated at \$1800.

Statement Shows January Earnings Merger of Doheny Companies to Nearly Quarter Million.

FEDERAL (TREASURER) LINE TO THE TIMES.

NEW YORK BUREAU OF THE TIMES, Feb. 25.—(Special Dispatch.) According to the statement issued today the gross earnings of the California Petroleum Company for January totaled \$245,500 and the net earnings after interest and deduction of \$16,600 sinking fund charges, were \$184,551.

The net earnings \$6.89 per cent., \$17,772 are available for dividends on California Petroleum stock. The earnings are the rate of 10 per cent. on the preferred and approximately 5 per cent. on the common per annum. The surplus increased approximately \$4000 in January through the purchase of bonds in the sinking fund at a discount. Summary figures do not reflect the benefit of the new topping plant recently placed in operation, which improve the showing for success-month.

LETTERS TO "THE TIMES."

The British Police.

LOS ANGELES, Feb. 25.—(To Editor of The Times:) As an Englishman and a suffragist may I be allowed to correct a statement made to you today when speaking of Mrs. Ward as "having been saved from drowning by the 'shamed' police." It gives a false impression, as police are our best friends, and beloved by one and all. I would, if I could, tell you more things, were there a little more time. I am a gentle, patient, thoughtful and kind man who am not to be met with the "over there" our English police. Our horse play has been perfectly eventable, and we women are the ones to recognize that in using a little police only do so in extreme executing their arduous duties.

EQUIVALENT TO LIFE SENTENCE.

Bakersfield Judge Scores Man Who Slept Friend.

Council Takes Measures to Secure Public Safety.

Another Superior Judge Is Needed by County.

RIVERSIDE, Feb. 25.—Receiving a sentence that is equivalent to life imprisonment, owing to the age of the prisoner, E. F. Pettibone, the most notorious charged with the murder of Joseph La Pointe at Dryden Springs, today calmly listened to the declaration of the court that he should be confined in San Quentin for the period of twenty-five years.

La Pointe was killed last June, shortly after he had set out on a mining expedition with Pettibone. The body was discovered only a few weeks ago, and identity established through the gold filings found in the teeth.

Pettibone, who was arrested shortly after the identification of the remains, a few days ago confessed to the crime, but alleged that he was prompted to act in self-defense, using a club on his victim.

With regard to this allegation, John Darrow said:

"While I must accept your plea of guilty to second degree murder, I cannot reconcile myself to your story of how the crime was committed. It is so at variance with reasonable supposition and conclusion that I place no faith in it whatever."

The element of reformation in your case is not at all to be taken into consideration by the court. To do so with a man of your age would be useless. Taking the most favorable view of the case, I shall name a term of years that will mean life imprisonment. I shall make you but one courtesy, that of allowing you to name the prison in which you shall be confined."

ACTION ON RAILWAY CROSSINGS.

The City Council decided today to take action in the matter of better protection of railway crossings, as the result of the accident a few nights ago, when William McMahill's car was wrecked and his daughter painfully injured as the result of smash with a Southern Pacific passenger train.

The resolution adopted by the City Council directs an ordinance providing for the installation of automatic devices or other safety appliances at all dangerous crossings, same to be designated by the Council.

RECORD FOR TWO JUDGES.

If the endorsement of the majority of the taxpayers assembled to discuss with Senator Anderson and Assemblyman Ellis the proposition of providing a second department of the State Auditorium, the two judges appointed by the Legislature, a second judge will be seated here July 1, 1918.

The decision was arrived at after a two-hours conference at the Chamber of Commerce rooms, after some strenuous opposition had been expressed to the proposed bill.

The resolution adopted is really a recognition of the growing jury room needed the creation of a second department, but opposition developed at the recent annual meeting of the Chamber of Commerce. The suggestion that the appointment be deferred allayed a good deal of this opposition.

BOOST FOR Y.M.C.A.

Nearly \$2000 was reported pledged at the luncheon at noon today in a midwinter canvas conducted by the members of the city for the coming year budget of the Y.M.C.A. It was the plan to raise \$3500 in a three-day canvas, but the success attending the efforts of the teams during the first forenoon's work indicated that the entire amount will be raised by tomorrow noon. The campaign was launched at a banquet given by the directors of the Y.M.C.A. last night. The work is being directed by L. E. Jones of Los Angeles, financial secretary of the State Committee.

AKES \$10,000 DAMAGES.

Ten thousand dollars' damages is asked in a suit filed today by W. West of Hemet against W. S. West, J. M. Frazer and the Hemet Packing Company. It is alleged that defense was responsible for the removal of the plaintiff on a misde- mension charge.

West was placed under arrest and was imprisoned for nearly a half hour, until bail was furnished. A jury was impaneled and the trial was adjourned to the 1st of March.

The trial was adjourned to the 1st of March.

SECOND-BLAKE TRIAL BEGINS.

Man Charged with Murdering J. C. Steiner at Kramer Several Months Ago Will Make Vigorous Fight.

(BY DIRECT WIRE TO THE TIMES)

SAN BERNARDINO, Feb. 25.—[Exclusive Dispatch.]

The second trial of John Blake on a charge of murdering J. C. Steiner, at Kramer several months ago was begun today, despite juries being in sight when court adjourned. A former trial resulted in a disagreement, but it is declared the defense had secured some important evidence since.

The killing grew out of a feud which had existed in the desert town for some time between a man who is a veteran of the Sepoy rebellion, nearly 80 years of age, but still vigorous and healthy. He will make a bitter fight for freedom, principally on the grounds that the bullet that killed Steiner was not intended for him and also that he shot by mistake.

When the storm clouds broke away this afternoon the rain gauge had registered 3.21 inches for the storm, and 4.55 inches for the season. Heavy snow continued to fall on the San Bernardino mountains all day today, the snow on the hills now exceeding all records for recent years.

HIGH PRICES
AND POOR GAS.
REDONDO BEACH CITIZENS
WANT METER REGULATED.

President of Board of Trade Appeals Before Board of Trustees and Makes Allegations Which Will Result in Inquiry and Possible Legislation—Short News Stories.

REDONDO BEACH. Feb. 25.—An effort is being made here to secure a lower rate for gas from the Western Fuel, Gas and Power Company. It is alleged that the rates charged here are not only higher than in most cities, but that the quality of gas served by the company is poor.

R. C. Frits, president of the Board of Trade, protested last night before the City Council against the high rates charged here and urged that the board pass an ordinance regulating the rates and service for the protection of the consumers. Frits further asked that a gas inspector be appointed by the board and that apparatus be purchased for testing the quality of the gas. Frits said the rates here were from 20 to 100 per cent higher than in surrounding cities and referred to Long Beach, which city he said had received from the gas company a reduction from one year through the method adopted by the city of testing the gas and hiring a gas inspector.

A statement was read from the gas company that the gas is good and never out. The letter stated that the company was negotiating with the California Gas Company for the purchase of artificial gas in bulk and that the company would furnish the consumer within a few months even if the natural gas is not available.

The City Clerk was instructed to request the gas company to make a statement under oath showing the amount of receipts and expenses for the last year.

The clerk was then instructed to file a different citizen of the sixth ward for gas ordinance and to file a protest for gas and their regulations over the gas companies.

Frits and President J. H. Cavanagh of the Board of Trustees had a little talk when Cavanagh replied to Frits' protest by saying that he had already called up the matter with the gas company. Frits said it had never been done at a public meeting and he did not approve of the city officials doing business with corporations in secret meetings.

NEWS BRIEFS.

A protest against the proposed city plan to occupy the residence of Dr. T. Hembree on the Explanade was made to the Trustees by adjoining property owners and others, including Avery McCarthy, H. E. Farnsworth and A. D. and M. D. Duggins. The matter is not under the jurisdiction of the Council, nothing was done with the protest.

C. H. Potter was appointed secretary and publicity man for the number of Calitrons at a meeting of executive board of the organization held yesterday. An information and publicity bureau will be fitted up at entrance to the pavilion by the chamber within a short time where Redondo Beach Improvement will be distributed.

Maximilian Mahring of Austria was distinguished guest at Hotel Redondo, where he was one of a party including Sidney Torrance and Pierrepont of Los Angeles, Pierrepont of Texas and A. Eames of Buffalo.

A site for the new St. James Catholic Church to be built here has been purchased by the bishop of this diocese of D. M. Dorman. The sum of five thousand dollars, a gift of Vincent and Elena avenue, for which \$5000 was paid. The deal was made through the agency of L. F. Dill and A. W. Quintal. It is not known just when the proposed new estate sales this week include that of the F. H. Walters place on one avenue and Opal street to be named O'Connor. It cost \$1000. The corner of Seventh street and Avenue belonging to the Redondo Beach Improvement Company, J. M. Cromwell for \$800. The sales were made through Wells & McVay.

INVOKING INITIATIVE.

POMONA. Feb. 25.—It is announced here that the initiative clause in the new local city charter to be invoked for the first time in an effort to lower the gas and electric rates here provided that the City Council refuses to act. This will come under the leadership of the socialist party and preliminary steps have already been taken in the filing of a notice of intention to invoke the necessary petition.

This notice contains also a proposal ordinance relative to lowering the rates, which briefly provides that the gas rate be reduced to a minimum of 10 cents, and a charge of 10 cents per cubic foot, with a minimum of 50 cents per month.

In connection with the water rates proposed for different usages of water, it is provided making a general average of about 25 per cent. The bills filed are signed by J. H. Berford, Albert James, H. H. Johnson and W. A. Farmer. It is planned that the papers have been filed in order to give the City Council opportunity to act before resort is had to the initiative.

NEWS BRIEFS.

E. McCOMAS of West Holt who was run over by an automobile on Sunday night while he was on his way to church, and who is bound to the house there, is reported as well as could be expected to be out in a few days.

Piggin's House last evening as a brotherhood of Washington, D. C., was served by a memorial of Washington, D. C. The band hall was decorated with American flags, patriotic address was given by Willis A. Parker of the Sons of Philip of Pomona, Calif., who had for his subject, "Washington and Lincoln and the Fathers."

Mr. N. C. Padley is having their apple ranch on Redondo in San Diego county. They experienced a heavy snow storm.

Mr. Padley is increasing his orchards by planting more trees.

More Contests at Venice

(Continued from First Page.)

Jack found instructions awaiting him in Hogan's to join the Sacramento club at Marysville yesterday. This being physical impossibility, and Jack having a bunch that gun boats are now in Vicksburg at Marysville, as no elsewhere. He will not leave the North before time to go back to Sacramento for the purpose of "settling up." He seems to have succeeded, as he tipped the beam at 125 pounds upon his return. He claims that a little surplus pounds

is a desirable thing, in view of the long and grueling races which are held on the Coast.

New League Scene Certain.

Things are looking up for the proposed Class D league to be launched under the auspices of the Cone Leagues.

President Major yesterday succeeded in getting satisfactory leases from the Pacific Electric people, who control the parties. Fresno Stockmen are now in Vicksburg at Marysville, as no elsewhere. At least, they are satisfactory to him, and he believes that these will meet the approval of Henry Berry and J. Cal Ewing, who are to finance

the teams in Fresno and San Jose. As a result of negotiations extending through two days, all the objectionable articles eliminated from the leases, and he will today forward copies of them to Berry and Ewing.

The new league seems certain to be launched, unless unexpected complications should arise. No date has been set for the opening, but it will be between April 15 and May 1.

President Major has agreed to the management of the Stockmen club, which will be backed by Major and Hogan, and it is understood that Berry is considering George Wheeler for manager of its Fresno club.

MURPHY REFUSES TO FIGHT WHITE

(By FEDERAL (WIRELESS) LINE TO THE TIMES)

CHICAGO, Feb. 25.—[Special Dispatch.] Thomas Murphy, the New York fighter, who recently held Ag. Walker to a draw, has declined to box Charlie White before the Kosack, Wis., club, March 16. Word came today [Wednesday] Murphy's refusal of offer of \$1,000 to fight ten rounds with White.

Visitors at Lewis' gymnasium this afternoon saw one of the liveliest exhibitions of boxing staged in months.

Paddy McFarland and Eddie McGaughy put up a brilliant exhibition and won the title. They boxed three rounds with Bill, but he fought fair and square.

"I stepped and rolled him down to many of the young fighters," said Paddy, "but they say that you have to do more than that to win. I took a look, if he intended to hit me, and take care of himself. I think at that time I was at my best."

MY DAY WITH VAN COTT

Jim Corbett was a guest of Jim Jeffries for a couple of hours yesterday at the Los Angeles Athletic Club.

Gentleman Jim was shown over the building from cellar to roof by Fred Garrott, vice-president of the club. Mr. Garrott, by the way, is an old-time friend of Corbett's, having met him years ago in the Olympic Club when they both were members of that grand old organization.

Jim has always been deeply interested in anything in the athletic line, and especially with the boxers, where he first got his start.

He was not with a single spectator except on each deck and midship deck. "I have seen every amateur club in America, England and France, that amounts to anything, but the Los Angeles Athletic Club has them all beaten so far, that there is no comparison. The furnishings, equipment and appointments are the finest in the country, and I am sure we will be able to describe it to our eastern friends will be to tell them to go out to Los Angeles and see it for themselves."

Corbett will be with us for a week, and planned to make several side trips before leaving.

Jim Jeffries, Jim Corbett, Harry Morrison, Billy Manning and Joe Westcott met in Jeffries' east room yesterday afternoon. All are old San Francisco boys, except Jeff, but he enjoyed the old-time talk as much as anyone in the bunch.

Corbett was much surprised when he discovered that Billy Manning was well-to-do these days. He also asked Billy about the days when he was a fighter, and said: "Bill, I have seen you in many fights in the old days and every time you fought you either hit your man or started a rough house; and whenever we would all live if we did take advantage of those things while we have the chance."

Corbett will be with us for a week, and planned to make several side trips before leaving.

Jim Jeffries, Jim Corbett, Harry Morrison, Billy Manning and Joe Westcott met in Jeffries' east room yesterday afternoon. All are old San Francisco boys, except Jeff, but he enjoyed the old-time talk as much as anyone in the bunch.

Corbett was particularly impressed with the handball courts and the beautiful lounge-room. He has always been an ardent handball fan and said: "Imagine a man coming up to this club, playing a couple of games of handball, taking a bath, getting a cold drink, and then sitting in their dining-room and having lunch. It is a pity that we cannot live forever to enjoy these things and how much longer we would all live if we did take advantage of these things while we have the chance."

SECTIONAL VIEW OF THE NEW GRAND CENTRAL TERMINAL, NEW YORK CITY

New Grand Central Terminal The Heart of New York City

THE interior of the New York Central Lines' new Terminal, just opened in New York City and dedicated to the Public Service—is a marvel in size and compactness, beauty and utility, comfort and convenience—a terminal larger than and different from any other in the world.

Broad inclined walks take the place of stairs—the distance from street to train is a short, easy walk.

Standing at the center entrance on 42nd Street you can see The Twentieth Century Limited, across the waiting room and concourse.

The movement of the traveler is a progressive one, the ticket windows coming first, the Pullman windows next, the baggage office third, then your train.

There are no steps to retrace, no time lost, passengers proceeding direct from waiting room or concourse to train platforms.

There are two great concourses, each 800 by 120 feet, one for

through passengers and the other for suburban passengers.

The tracks on two levels within the terminal aggregate 88 miles. Forty-nine acres are devoted to through traffic and thirty acres to suburban traffic.

Thirty thousand people may be comfortably accommodated in this terminal at one time. Over twenty million will use it in a year, indeed it is planned to accommodate a hundred million people annually.

All trains entering and departing from the Terminal are drawn by electric motors—no smoke, no noise, no dust, no soot.

Train platforms are broad, and level with car floors; no steps to climb, or descend.

For the comfort and needs of women, there are private rest rooms

and waiting rooms with maids in attendance, toilet rooms, manicure and hair dressing rooms, and shops—all within the terminal.

Surrounding the Terminal is building a new civic center, embracing convention, amusement and exhibition halls, hotels, clubs, and restaurants, post office, express offices, modern office and apartment buildings and numerous stores and specialty shops.

The new Grand Central Terminal is located in the heart of New York, and is the only station on all lines of local traffic—the subway, the surface and the elevated. More than 7,000 cars pass its doors every day, affording easy transit facilities to the furthest part of New York City and suburbs. Within a radius of a few blocks are 49 hotels, 58 clubs and 35 theatres.

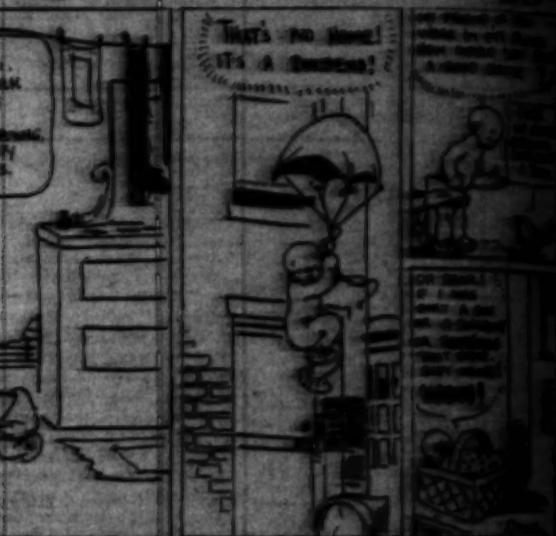

Plan your next trip East over the Water-level Route of the New York Central Lines. Enjoy three hours along the Hudson, and reach the heart of New York through this remarkable Terminal.

Horrible!

To it for data with the result that I thought up a situation, considering the time of day, out of the game. I beat him three rounds with Bill, but he fought fair and square.

"I stopped and told him to many of the young fighters that you have to do more than just punch him to win, and then I took a look, if he intended to hit me, and take care of himself. I think at that time I was at my best."

Tom Jones and Willie Brown arrived yesterday. Tom Jones is a boxer, Willie Brown is a boxer, and they are both very bright. They said that if he had taken care of himself, he would have won. They said that Murphy was both, even over 40.

James said that Ad met him better if he had been more aggressive, but he was afraid to try for Brown, as he was then an amateur.

"Willie," said Tom, "you're not bad, but you're not good."

Walton will come to town where he is settling up for his bout with Murphy, which is to be fought in Oregon, Saturday, Feb. 23.

Willie Brown will come to town Saturday night to meet Murphy, and they will be in the ring at 10 p.m. The fight is to be held at the Auditorium.

WITH THE PHOTOPLAYERS.

BY AL G. WADDELL.

Arrangements were made yesterday afternoon for the Photoplayers to take over the quarters of the University Club, at the corner of Sixth and Hill streets. The organization has grown so rapidly that it was found necessary to secure larger quarters. It is the intention of the officers and members of the Photoplayers to build their own clubhouse in the near future, but it is believed the new quarters will be large enough for some time to come.

"Snow White," the three-reel Powder production adopted from Grimm's tale of that title, which is being shown at the Optic, is said to be one of the most artistic moving pictures ever made.

In the production of this picture H. Mathews, the director, has told the complete story in pictures preserving the childlike simplicity of the plot without the needful moralism which was often incorporated in pictures taken from legends of this character.

Mattie and Early, the two famous "Power Kids," appear to great advantage in a girlie role, and some of the scenes are positively marvelous. The gnomes are shown in the forest where they have their little hut and a mine. The court scenes are brilliant. Katherine Griffith, the Jewish actress, is surrounded by royal personages in gaudy costumes. Joe Burke, as the court jester, is both clever and comic. Charles Manley, David Wall, Gordon Buckley and Harry Blakemore all have strong parts, which afford many opportunities to display their abilities as silent dramatists.

John Bunny, one of the best-known and highest-salaried photoplayers in the profession, is to appear as Pickwick in the new production of Dickens' masterpiece, "Pickwick Papers," at Clune's Broadway Theater during the week of March 2.

The moving-picture interests in Southern California are in full swing and were introduced during last performance. This custom is to be followed regularly, and Fred Mace is to be introduced tomorrow evening. After the members of the Keystone company had been introduced, the "Banana" company is to be introduced one at a time. When Miss Normand appeared 1500 feet of film in which she was shown were run off.

In "The Country Cousin," a comedy picture being made under the direction of Al E. Christie, Mrs. Sedley Brown is appearing opposite to Russell Bassett. Both are excellent comedy players and capable of producing an abundance of fun.

Director Thomas Ricketts of the Nestor brand is putting on an interesting western drama in which Miss Anna-Mason and Alexander Godkin are appearing. The company is in full swing, and Miss Mason appears as a gambler's accomplice and with her charming manner the hero of the plot, who escapes and later rescues his youth from the trials of the women.

The acting of Edwin August in "The Calling of Louis Mora" promises to make this two-reel feature a truly great picture. The scenario was written by Edwin August and in the character of Louis Mora he has the most opportunity for a wide range of expression. The monastery scene is one of the finest ever set on a motion picture stage; and this part of the drama should be very impressive. The acting of Charles Manley in this scene is good.

Hammond Basil has succeeded Frank Dynas as publicity manager for Cinema's local houses. Dynas is now acting in the capacity of traveling representative for "From the Manger to the Cross" films.

A company of competent photoplayers has been recruited by Director Montgomery for the production of the Lincoln J. Carter stories in pictures. "Bedford's Hope" is to be produced first and work on this film is to start today.

Henry McRae, who for the past two years has been directing the great animal pictures made by the Selig Polyscope Company, has just returned to Los Angeles and is to start on his first picture there. Mona Durkheim, Charles L. Burtt and Ray Watson are to play the principal roles in his productions.

Charles Averill, who is known as the "Porker Edition" of Laurel of The Photoplay, directed a sketch presented at the Keystone studio yesterday in which he played the title rôle of "The Fisherman." Made up on the order of a what rat Avery all the cast of the studio holding in full view of a heavy line, nothing for yellowish.

Arrangements have been completed for the production of a great picture by the Fox Company under the direction of Old Tom. The title of this feature is "Robinson Crusoe." The ship is a masterpiece in propety building. An old ship has been pro-

EAST AND WEST FOR TRANSCONTINENTAL ROAD.

INTEREST in the proposed Ocean-to-Ocean Boulevard now centers in the East and Middle West. The National Highway Association, its president, Charles Henry Davis, has organized a campaign and a series of bulletins are being sent out to all those who have taken an active part in the project for Federal aid.

The public is to be educated in a way that should mean many more good-roads boosters. The work that is being done in the East and Middle West is to be shown, not by statistics, but by the actual scenes of operations. The cost of road building and the upkeep of national highways will be explained in detail.

The National Highway Association is backed by none of our most prominent Ocean-to-Ocean Highway enthusiasts. Gen. Coleman DuPont is chairman of the Board of Commissioners and Fred Huntington, M. E., is vice-chairman.

George J. Lowe of Kansas City, president of the National Old Trails Ocean-to-Ocean Highway Association,

will carry on the campaign which was started when The Times Special made its trip across the continent last year.

Judge Lowe made the journey in the car and he proposed to place the master before Congress in such a way that Federal aid would be secured.

In the map of the proposed national highway, just issued by Judge Lowe, the Old Santa Fe Trail is followed, but the route is mapped to include El Paso. The question is whether the transcontinental highway is to be built in such a way that the new route will be preferred to the old.

Between the Empress and the motion-picture companies Mr. Corbett's visit to Los Angeles should prove a highly profitable one.

Now that Oliver Morosco is speed-

ing towards New York, house man-

agers, actors, property men, etc., will

find Charles Eyrton firmly planted in the Morosco chair to listen to their troublous tales.

Mr. Eyrton, who is vice-president of the Oliver Morosco Company, will have complete charge of the Morosco theaters and affairs during the absence of Mr. Morosco.

Yes, Lee Durlachstein really does

play the piano in "The Concert."

That isn't what gives the name to the skit, but it well might, for few professional pianists could do any better at "ratting the ivories" than he does.

SEYMOUR SIGNS.

BOSTON, Feb. 25.—[By A. P. Night Wire.] "Cly" Seymour, outstanding tenor of the Boston Opera, is not being pushed. The money is going in slowly and half of the sum is in sight. Work on the Los Angeles-to-Yuma road is being started by Charles H. Bigelow, engineer, who is now in Brawley.

BY ZIP.

"No, I'm not here to build a new theater. Knowing that's the first question you would ask me, I'll just save you the trouble and answer it before you get a chance."

There's no use telling you the question. I waited until the Empress theater all day yesterday to propose to John W. Considine, because he beat me to it.

The "Big Chief" of the Sullivan and Considine circuit arrived here yesterday afternoon, with P. H. Sullivan, a brother of "Big Tim" Sullivan, and G. F. Bloomsteel. Both of the latter are making a leisurely trip through the west, visiting all of the cities in which Empress theaters are located.

Considine, in his usual way, will admit, is a great fellow.

Public Service; City Hall, Courts.

SUMMARY OF THE DAY.

Vice-President Guthridge of the Standard American Dredging Company appeared before the Board of Public Works yesterday and made the claim that the company is entitled to more than four months' extension of time on its harbor contracts for delays for which the city was responsible, and that the company will be able to complete all its work under the city contracts well within the limit if that extensions would give it.

Representatives of steamship companies urged the Harbor Commission yesterday to adopt a resolution endorsing a proposed amendment to Senator Hewitt's bill, so that all vessels registered in California ports shall be exempt from taxation. The commission will consider this subject today.

More than \$10,000 has been paid in by delinquent property owners on Exposition Park assessments since the sale of these properties began on Monday morning. Two more parcels of land were sold yesterday, but the sale will be continued all day today unless many property owners appear to make payments.

A man of 76, who is trying on a cross-complaint to secure a divorce from a woman about 39 years his junior, alleged in the Superior Court yesterday that his wife married him for his property, which charge she treated with apparent pity.

AMPLE TIME, SAY CONTRACTORS.

DECLARE THEY'LL FINISH HARBOR WORK WITHIN LIMITS.

Standard American Dredging Company Takes Stand that Extensions Are Due Because of City's Own Delays and Orders for Extra Work.

That every story has two sides was again exemplified yesterday when Vice-President Guthridge of the Standard American Dredging Company appeared before the Board of Public Works to present the company's side of the case in regard to delays on contract work at the Los Angeles Harbor. Guthridge made such a case that it is not likely the board will issue the drastic notices which it was requested to do by the Harbor Advisory Board at its meeting Monday.

Guthridge claims that the company he represents is entitled to extensions of time on its contracts amounting to four months, through delays caused by the city itself during the time the controversy raged over the chartering of porting of the ships to be done at the Huntington Hill. He also claims that under the provisions of the contracts with the city, the company is entitled to extensions of one day for each 4% of extra work required.

Under these provisions, says Guthridge, the company would have about eight months yet within which to complete its work. The contract limits, not taking into account these extensions, to complete the work by June 1, so the company will not require eight months to complete its entire work under the contracts in question. He states that it is the intention of the company to resume work on moving the old government jets to the new location in three lines at once, and that this will be carried through continuously, so that dredging may be filled in back of the entire new line.

A turbine dredger is to be brought down to the harbor and placed on contract work, and the entire work will be completed well within the time limit that the extensions claimed by the company will provide.

The Board of Public Works took no action yesterday on the proposal to support the results of the Guthridge visit to the Harbor Advisory Board.

FROM TAXATION

WOULD EXEMPT SHIPPING.

A bill introduced by Senator Hewitt last month provided for the exemption from taxation of shipping owned by California residents or corporations engaged in the foreign trade. A movement is now on foot to introduce an amendment to the bill, making the exemption reaching in its effects and exempting from taxation all shipping registered in California ports, the object being to increase shipping on this coast.

Charles J. Lehman of the Independent Shippers' Council and Frank Ritterbusch, representing the Motor Navigation Company, visited the Harbor Commission and discussed this proposition yesterday, asking that the commission adopt the amendment to the proposed amendment.

The subject will be considered at today's meeting of the commission. They also visited the Chamber of Commerce to ask the support of that body, and will present their project to the recently-organized industrial bureau.

WANT TO PAY.

THE MONEY ROLLS IN.

Two more lots were sold at public auction by Col. Schreiber, head of the Bureau of Street Assessments, yesterday morning at the City Hall to satisfy assessments for Exposition Park that are now delinquent. That is, a portion of each lot sufficient to satisfy the amount of tax due on it, was sold. Lot A of Ganahl Place tract, listed in the name of the Huntington Land Company, and upon which the assessment was \$2,30, was sold to F. H. Kroeger for \$3,41. The amount of taxes and penalties and costs Lot 2 of Ganahl & Spittley's subdivision of a part of the Washington Gardens tract, upon which the assessment was a similar amount, was sold for \$4,21 to A. E. Robinson.

The crowd of property owners delirious over the assessments was so large that further sale was postponed until 10 o'clock this forenoon, when it will be resumed and continue all day unless property owners are still appearing to make payment.

On the first day of the sale the assessment bureau took in payments on assessments amounting to \$653,87, and about \$400 was taken in yesterday. This vastly reduces the number of lots remaining to be sold, or sold, so that it is probable that not more than 1000 lots remain in the delinquent class.

PAVING DISTRICT MIXUP.

Philchild Gilmore Wilton Company sent to the Board of Public Works yesterday a bond for the construction of paving that is to be laid in the Dorchester Avenue district, which includes Dorchester, Manhattan place, Gramercy place and St. Andrews place.

This is the district over which a lively controversy has arisen, and

wherein the contract was awarded by the Board of Public Works the day before a public hearing on the subject was set to take place before the City Council. The Council postponed action and is to give the project a hearing today. The board will withhold acceptance of the paving company's bond until after this hearing.

MORE MONEY WANTED.

The ordinance providing for the payment of money to the Harbor Commission also provides a sum of \$2000 a year; but the fiscal budget carries only \$2500 for such purpose. Secretary Matson's salary fund will be exhausted therefore by the first of next month, unless additional funds are made available by the Council. This is the Harbor Commission asks the Council to do, and the subject will be discussed by the Finance Committee today.

PROPOSED FISH ORDINANCE.

At the instance of Councilman Robinson, who is president of the Harbor Commission, the commission prepared an ordinance regulating the sale and handling of fish which has as its object the elimination of alleged objectionable methods whereby a fish trust can be sustained. The ordinance will prohibit methods whereby fish must be sold direct from the fishermen to the jobbers or retailers, and also provides for the calling for reports from cold storage concerns on the amount of fish held in their places of business.

CITY HALL BREVITIES.

Property owners representing 1114 feet of the 1245 feet of frontage on J. T. Burton's Park Front tract recently deeded to the city as a pedestrian right of way adjacent to South Park filed a petition yesterday asking the City Council to cancel the South Park Frost. The notes were given to secure the land survey and deficiency in the acreage and demanded cancellation of the notes.

money could be most judiciously applied by Judge Wilbur.

The check was cashed and distributed among the probation officers for use in emergency cases. Each probation officer received \$20 as a fund for their relief work.

The check is in conformity with the provisions of the bill Judge Wilbur prepared and which is before the Legislature. It provides that funds may be turned over to the County Treasurer to be disposed of by the Juvenile Court for the benefit of children.

CASE GOES ON.

PLAINTIFF TOURING EUROPE.

A suit conducted in the absence of the plaintiff is being tried in Judge Craig's court. The action was brought by H. D. Lombard. Previously a continuance had been asked because he was touring Europe, and in a written opinion Judge Craig denied the motion.

Lombard seeks to restrain H. W. Robinson from transacting eleven promissory notes for \$1000 each and making application to the Title Guarantees and Trust Company to declare the indebtedness secured by a trust deed. The company is also sought to be restrained from selling property represented in the notes.

Robinson filed a counterclaim for \$31,92, alleged to be due for five tons of grapes that had been made into wine.

It was about the quality of the product that lawyers harangued.

The Slavonian colony wrought themselves up to a high pitch of excitement.

The chief question was: Is the wine inhabited? Wine is usually lively with bubbles, if it's that kind of a vintage, and there's no telling what wine is inhabited.

Judge Craig denied the powerful microscope. But the Slavonians said the wine they pressed out of the barrel grapes had worse things in it than anyone ought to see with the naked eye—wriggly things.

Sarral said the others agreed to taste the grapes that had been raised by moisture, and that a poor load had been delivered under cover of night.

The wine stood about in bottles, where it was sampled by a train of witnesses who spoke English indifferently and apparently had an utter disregard for the German words, so far as little marks are concerned. It was variously like beer, oil, honey, limburger and the pector of the gods, according to the side exposed by the witness. Finally an expert was called.

This personage, Leonard Aquilino, said that the "citrusites" play no mean part in the judgment of a vintage.

He looked at the wine against the light, sniffed it, took a thimbleful in his mouth, rolled it about, blew through it, gurgled over it, and spat it out. Then he went on to the next bottle.

It was a scientific exhibition with a peerless palate, said the plaintiff.

Aquilino asserted the grapes had been raised on that a white fungus had been seen on them before they went to the press, and that the wine isn't worth more than 4 to 6 cents a gallon. It might go to a distillery, he said, to be made into brandy; it might be permitted to become vinegar, though acetous acetone. One bottle had been drawn from a full barrel, he believed, because it had not "oxygenated;" another had come from a half-barrel, because it had. Both sides agreed he was right.

Attorneys and the court adjourned to leave the exhibits with Clerk Alvarado, saying he is about to have a birthday and might celebrate; but Attorney Amend, for the opposition, said no man, not even a child, would drink such stuff. Alvarado put it into a safe, and is wondering whether it will have fermented and popped the corks by this morning.

THE SUIT WAS TRIED IN DEPARTMENT FIVE AND TRANSFERRED TO DEPARTMENT NINE WHEN JUDGE CONNEY TOOK POSSESSION OF FORMER JUDGE BORDWELL'S COURT.

THE SUIT REVEALS A ROMANCE. BALDARD IS 76. HIS WIFE IS ABOUT 45. HE TESTIFIED YESTERDAY THAT HE MET HER ON A TRAIN AUGUST 9, 1901. SHE CAME TO PASADENA. HE WAS MARRIED DECEMBER 18, 1892. HE TESTIFIED THAT ON A WEDDING NIGHT HE DEEDED HIS PROPERTY. LATER HE GAVE HER A BILL OF SALE OF HIS HORSES AND CARRIAGES.

INSTEAD OF DOMESTIC PEACE, HE ALLEGED SHE PLOTTED TO DEFRAUD HIM OF HIS PROPERTY AND TO TREMENDOUSLY INJURE HIM. HE SAID SHE WAS AN INFAMOUS WOMAN WHO HAD BEEN SEPARATED FROM HER HUSBAND FOR MANY MILLIONS OF DOLLARS.
